Back-End: Node.js, Express.js, Rest API, AWS, GraphQL, MongoDB

Tools: Firebase, JWT Token, Heroku, Jira, Trello, Bitbucket, Zoho Desk

Professional Experience

MedLink Healthcare Private Limited, Hyderabad, India

Software Engineer

March 2022 - Present

- Crafted flawless user interfaces with dynamic and responsive designs using React.js and Material-UI, elevating UI/UX standards.
- I have implemented efficient GraphQL APIs with AWS AppSync, seamlessly integrating lightning-fast data fetching.
- We have optimized website performance with advanced techniques like robust form validation, captivating charts, intuitive drag and drop, and efficient file viewer.
- Collaborated closely to swiftly resolve bugs, ensuring impeccable functionality and exceptional user satisfaction.
- Contributed to dynamic SaaS projects, driving innovation and efficiency with cutting-edge solutions.
- Cultivated inclusive user experience with internationalization (i18n) for seamless multilingual support.
- Streamlined financial transactions by seamlessly integrating payment gateway with Paytm, enabling hassle-free and secure online transactions, and Streamlined customer support operations by integrating Zoho Desk's front-end.
- Collaborated as an integral part of the production rollout team, orchestrating the flawless end-to-end deployment of applications from development to QA and ultimately to production in AWS, ensuring a seamless transition and optimal performance throughout the entire production rollout process.

Projects

Grocery Heaven [Live Site](#) | [Client Site](#)

- Crafted a user authentication flow that seamlessly blends robust security with a user-friendly experience, ensuring confidential and effortless logins and logouts.
- Curated an intelligent product ecosystem featuring category-driven navigation, empowering users to effortlessly explore and discover products tailored to their preferences.
- Ignited shopping excitement with dynamic "Trending" and "Best Sellers" sections; our spellbinding "Related Products" feature invites users into a captivating world of tailored discoveries.
- Conducted a shopping symphony with one-click "Add to Cart" and "Add to Wishlist," turning checkout into a blissful journey from desire to satisfaction.
- Architected an admin interface for operational wizards, providing administrators with an efficient toolkit for managing product inventory, tracking orders, and overseeing user interactions.

MedLink Jobs (Professional Project) [Live Site](#)

- MedLink Jobs is India's first recruitment portal which connects healthcare professionals with enticing job opportunities.
- Unlock the Future of Healthcare Hiring: MedLink - Your Gateway to Rapid, Transparent, and Budget-Friendly Talent Acquisition!
- A valuable resource for seamless job search, and talent acquisition in the medical industry and prioritizes user experience and data security.
- Optimized solutions to support a thriving community of 200,000+ registered users.
